# Cateco CEM Heated Filter Unit

The double-wall aluminum constructed heated filter unit is an excellent choice for CEM applications that require heated filters or valves. The case is extremely lightweight and durable, and heats quickly with its small heating area. The probe is mounted through an aluminum arm identical to those used on the Modular Sample Unit. A strain relief is provided for a stable heated sample line connection. Electrical connections are compatible with those used in the industry. An optional quick mount dual heater controller (# 0035C) is available to control probe and box heaters.

Specifications

<b>Part Number</b>	<b>0035B Cateco CEM Heated Filter Unit</b>
--------------------	--------------------------------------------

**Voltage Requirement:** 120 V  
**Power Requirement:** 300 W  
**Umbilical Power Input Connection:** Amphenol 4-pin  
**Auxiliary Power Output Connection:** 3 pin 120 V receptacle  
**Thermocouple Connection:** K-Type panel mount  
**External Dimensions (h x w x d):** 7.5" x 9.25" x 16.25"  
**Internal Dimensions (h x w x d):** 6.25" x 7.25" x 7.25"  
**Weight:** 7 lbs. (3.2 kg)

<b>Part Number</b>	<b>0035C Dual Heater Controller</b>
--------------------	-------------------------------------

**Voltage Requirement:** 120 V  
**Umbilical Connection:** Amphenol 4-pin  
**Temperature Controllers:** 1/32 DIN, Fuzzy Logic  
**Thermocouple Connection:** K-Type panel mount  
**External Dimensions (h x w x d):** 3.15" x 4.76" x 7.75"  
**Weight:** 3 lbs. (1.36 kg)
